

Introduction to Paddle-Ability

Session 13 – Scenarios

Activity Cards

Scenario 1

You have been contact by your local association for the blind. They have booked a six week block of sessions.

Scenario 2

You have been contacted by the parent of a young person with a hearing impairment. They would like to join in with club sessions and are looking to come Kayaking as an activity that they can enjoy together.

Scenario 3

The carer of an adult with learning disabilities has contacted you and would like to bring their client to a taster session.

Scenario 4

A family have contacted your club/centre because they would like to try canoeing. There are two children (9 and 11 years old) and the adult is in his forties and is a wheelchair user.

Scenario 5

An older couple have turned up to a 'Come and Try' session. They are looking for something different to try out as they are finding hill walking more challenging. They have filled out activity forms and have indicated to you that one has arthritis and the other diabetes.

Scenario 6

You have had a booking from a Mental Health organisation for a block of sessions for young men with mental health problems.

Scenario 7

A school for young people with behavioural problems have been in contact. They would like to work with you to put on a programme of canoeing activity that can be used as part of the PE provision.

Scenario 8

A young person has joined your club. His membership form indicated that he has epilepsy.
