

## **Personal Performance Awards Final Recommendation Guidance**

British Canoeing Awarding Body is committed to delivering world leading qualifications and awards, ensuring high standards of experience and knowledge in all the disciplines represented. This document is to assist Coaches and Leaders working towards becoming Providers.

### **Essential**

To ensure the continual provision of a high standard of delivery, British Canoeing Awarding Body is committed to make sure that appropriate paddlers can deliver the awards. Providers that can deliver awards are key in ensuring consistency of standard and delivery. Providing mentoring and support will create a climate that aspirant Providers can grow and develop in an appropriate way.

There is no Logbook process, aspirant Providers are encouraged to actively consider their development towards becoming a Provider.

It is acknowledged that individuals working towards becoming a Provider have different levels of experience, knowledge and skills. It is recommended that a development plan is considered to gain experience, working with different Providers and in different environments. For anyone new to providing British Canoeing Awarding Body Awards, it may be useful to construct a development plan with a more experienced Provider.

Before a Final Recommendation is submitted to the relevant Delivery Centre Coaching Manager, the Provider must be confident that they have seen the appropriate skills, delivery and behaviours that are aligned to the ethos of the Personal Performance Awards.

Some of the awards can be obtained in a variety of craft and the aspirant Provider will need to demonstrate skills, rescues and understanding of the different craft that could be presented for each of the awards. The Final Recommendation can only be submitted if the Provider is confident of this and that it reflects the nature of the award.

## Accredited Prior Learning (APL)

British Canoeing Awarding Body recognise that some coaches do not hold the qualifications listed but are highly experienced, skilled and knowledgeable within specific award areas and would want to obtain Provider roles.

British Canoeing Awarding Body promote and support APL and would encourage a coach or leader with appropriate recorded evidence to consider APL as a viable option to be able to work towards becoming a Provider through the Final Recommendation process.

APL applications must be fully approved by their Delivery Centre Coaching Managers before a Final Recommendation can be obtained.

## Who can submit a Final Recommendation?

The following table shows who can endorse [Final Recommendations](#) for aspirant Providers to their Delivery Centre Coaching Manager. Checks will then be made to ensure that all the appropriate credentials are held, including:

- In date Membership
- Valid and current First Aid Training
- Current Safeguarding Training
- Continual Professional Development (CPD) evidenced.
- Personal Performance Award Provider eLearning completed.

For both Paddle Start and Paddle Discover there is no requirement for recommendation.

Paddle Awards	Min qualification that can deliver the award	Minimum qualification holders that can work towards becoming a Provider
